

New Graduates | EY Parthenon - Fixed Assets

At EY, we're all in to shape your future with confidence.

We'll help you succeed in a globally connected powerhouse of diverse teams and take your career wherever you want it to go.

Join EY and help to build a better working world.

Are you ready to shape the future with confidence?

Will you shape the future or will the future shape you?

How will we work better together to build a better working world?

Here at EY, you'll have the chance to build a truly exceptional experience. We'll empower you with the latest technology, surround you with high-performing teams, and provide the global scale and diverse and inclusive culture you need to discover your full potential. Through our coaching and training programs, you'll develop the skills you need to stay relevant today and, in the future, – all while building a network of colleagues, mentors, and leaders who will be on the journey with you at EY and beyond.

The opportunity: your next adventure awaits

We are looking for a New Graduate to join our Fixed Assets team in our Lisbon office. EY has a leading real estate practice where we tackle complex issues in fixed asset management. You will have the chance to work on various projects, receive mentorship, and engage in formal learning. This is how we nurture outstanding leaders who collaborate to deliver on our promises to stakeholders and play a vital role in building a better working world for our people, clients, and communities.

Your Key Responsibilities:

- Assist our Fixed Assets team in strategic and operational activities.
- Participate in physical inspections, asset inventories, valuations, and useful life analysis.
- Support asset valuation in industrial plants or utilities companies.
- Help prepare commercial presentations and draft reports.
- Contribute to maintenance plans advisory and optimization.
- Assist in using digital tools for data collection and statistical analysis.
- Collaborate with colleagues across Strategy and Transactions, as well as the broader EY team to support service delivery outcomes.

What we look for:

- You have an agile, growth-oriented mindset. What you know matters. But the right mindset is just as important in determining success. We're looking for people who are innovative, can work in an agile way and keep pace with a rapidly changing world.
- You are curious and purpose driven. We're looking for people who see opportunities instead of challenges, who ask better questions to seek better answers.
- You are inclusive. We're looking for people who seek out and embrace diverse perspectives, who value differences, and team inclusively to build safety and trust.

Qualifications:

- A degree in Industrial Engineering, Business Management, Economics, or a related field.
- A strong interest in fixed asset management, industrial asset valuation, maintenance plans, data intelligence, or IT systems.
- Proficiency in PowerPoint and Excel.
- A willingness to learn and tackle complex problems.
- Fluency in Portuguese and English.

What's in it for you:

- Accelerate your technical capabilities and transformative leadership skills with future-focused courses and development programs.
- Broaden your horizons by working on highly integrated teams across the globe and collaborate with people of diverse backgrounds — both professionally and culturally.
- Bring out the best in yourself with continuous investment in your personal well-being and career development.
- Develop your own personal purpose and help us create a positive ripple effect on our teams, our business, clients and society.
