

Ready to contribute to the future of the automotive industry?

As part of Hitachi Astemo, we focus on world-leading advanced mobility solutions in the areas of electric powertrains for automobiles, advanced chassis, autonomous driving/advanced driver assistance systems, and systems for motorcycles. In addition to reducing traffic accidents and traffic congestion, it is our mission to contribute to the realization of a sustainable, decarbonized society. Our people are at the heart of achieving these goals, and we are proud to be an equal opportunities employer.

In Lisbon, we are a Business Service Center supporting Europe plants (who are producing automotive braking solutions) in Finance, Procurement and IT fields.

Let's make the world a brighter place, become a part of the team and join our organization now as:

HR Generalist Internship
